CORAM: SMT. RANJANA DESAI, J.
8/12/05

P.C.:-

Heard learned counsel for the parties.

2. It appears to be the grievance of the applicant that respondent 1 is misinterpreting my order dated 1/9/05 and carrying out blasting operation on the road. I make it clear that that order cannot be read so as to give anyone any right to carry out blasting operations on the existing road.

None of the parties can use the said order to commit any illegality. However, if the applicant feels that respondent 1 is committing any illegality on the existing road it is always open to him to adopt such appropriate proceedings as he may be advised.

Needless to say that none of the parties can carry out blasting operation on the road.

Civil Application is disposed of in the aforestated terms.
